FOR IN VITRO RESEARCH USE ONLY. NOT FOR USE IN HUMANS OR ANIMALS.

Recombinant human RP11-345P4.4 protein

Ag12211 Form: Available lyophilized Species: human	MSSSVKTPALEELVPGSEEKPKGRSPLSWGSLFGHRSE KIVFAKSDGGTDENVLTVTITETTVIESDLGVWSSRAL LYLTLW (1-82 aa encoded by BC092507)
Available lyophilized Species: human	LYLTLW
Species: human	
human	(1 02 00 cheoded by beoy2307)
Expression Source: <i>e coli.</i> -derived, PET28a, with N-terminal 6*His.	
Biological Activity: Not tested	
Endotoxin Level: Please contact the lab for more information	
Reconstitution:	Shipping:
	The product is shipped at ambient temperature.
After reconstitution with sterile water, if glycerol has no effect on subsequent experiments, it is recommended to add an equal volume of glycerol for long-term storage (see Stability and Storage for more details). If a different concentration is needed for your purposes please adjust the reconstitution volume as required (please note: the ion concentration of the final solution will vary according to the volume used). Note: Centrifuge vial before opening. When reconstituting, gently pipet and wash down the sides of the vial to ensure full recovery of the protein into solution.	Upon receipt, store it immediately at the recommended temperature (see below).
90%, by SDS-PAGE with Coomassie Brilliant Blue staining.	
	•
Store for up to 12 months at -20°C to -80°C as lyophilized powder.	
Short Term Storage: Store at 2-8°C for (1-2 weeks). Long Term Storage: Aliquot and store at -20°C to -80°C for up to 3 months, reconstitution with sterile water and addition of an equal volume of glycerol. Avoid repeat freeze-thaw cycles.	
74 EDa	
43 kDa→ 28 kDa→	
	Not tested Fidotoxin Level: Pease contact the lab for more information Reconstitution Reconstitute at 0.25 µg/µl in 200 µl sterile water for short-term storage. After reconstitution with sterile water, if glycerol has no effect on subsequent experiments, it is recommended to add an equal volume of glycerol for long-term storage (see Stability and Storage for more details). If a different concentration is needed for your purposes please adjust the reconstitution volume as required (please note: the ion concentration of the final solution will vary according to the volume used). Note: Centrifuge vial before opening. When reconstituting gently pipet and wash down the sides of the vial to ensure full recovery of the protein into solution. 90%, by SDS-PAGE with Coomassie Brilliant Blue staining. The purified protein was Lyophilized from sterile PBS (58mM Na2Hf trehalose and 5 % mannitol are added as protectant before lyophili inidazole. Stort ferm Storage: Stora to 2.8°C for (1-2 weeks). Long Term Storage: August and store at -20°C to -80°C for up to 3 months, reconstitution with sterile water and addition of an equal outume of glycerol. Avoid repeat freeze-thaw cycles. August and store at -20°C to -80°C for up to 3 months, reconstitution with sterile water and addition of an equal outume of glycerol. Avoid repeat freeze-thaw cycles. August and store at -20°C to -80°C for up to 3 months, reconstitution with sterile water and addition of an equal outume of glycerol. Avoid repeat freeze-thaw cycles. August and store at -20°C to -80°C for up to 3 months, reconstitution with sterile water and addition of an equal outume of glycerol. Avoid repeat freeze-thaw cycles. August and store at -20°C to -80°C for up to 3 months, reconstitution with sterile water and addition of an equal outume of glycerol. Avoid repeat freeze-thaw cycles. August and store at -20°C to -80°C for up to 3 months, reconstitution with sterile water and addition of an equal outume of glycerol. Avoid repeat freeze-thaw cycles.
