Recombinant human ECH1 protein

Basic Information Catalog Number: Ag1331 Peptide Sequence: MAG(UASRRDLTRRICE) Form: Available (yophilized Secies: human Peptide Sequence: MAG(UASRRDLTRRICE) Reconstitution Reconstitution Since: e coll-derived, PGEVAT, with N-terminal CST. MAG(NASRRDLTRRICE) Reconstitution Biological Activity: Not tested Reconstitution Reconstitution Please contact the lab for more information Shipping: The product is shipped at amb yon receipt, store it immedia storage for more details). If a different concentration is needed for your purposes please adjust the reconstitution with sterile water, if glycerol has no effect on subsequent experiments, it is recommended to add an equal volume of glycerol for long-term storage (see Stability and Storage for more details). If a different concentration of the final solution will vary according to the volume used). Note: Centrifuge vial before opening. When reconstituting gently pipe and wash down the sides of the vial to ensure full recovery of the protein into solution. Purity 89% by SDS-PAGE with Coomassie Brilliant Blue staining. Formulation The purfied protein was Lyophilized from sterile PBS (SBm Na2HPO4, 17m NaH2PO4, 68m NaC trehalose and 5% mannitol are added as protectant before lyophilization. The elution buffer contail stability and Storage Storage of Reconstituted Protein Shor Term Storage: Stor Term Storage: Stor Term Storage: Storage of Reconstituted Protein	
Available lyophilized NiReAMMMVFWEENECFME Available lyophilized G(MFTAGIDMMASDLQPRG Species: RPQETNVIECPREWIAAVECFME Species: RVCADDASDLQPRG Human RVCADDASDLQPRG Expression Source: RVCADDASDLQPRG e coll-derived, PCEX-T, with N-terminal GST. AtAALAEISSKEPAVQSTKNI Biological Activity: Not tested Invokation Level: Please contact the lab for more information Reconstitution: Reconstitution with sterile water for short-term storage. After reconstitution with sterile water, if glycerol has no effect on subsequent experiments, it is recommended to ad an equal volume of glycerol for long-term storage (see Stability and Storage for more details). The product is shipped at amb upon receipt, store it immedia to long-term storage (see Stability and Storage for more details). The volume vacol, when reconstituting genty pipet and wash down the sides of the vial to ensure full recommended to ada an equal volume as locution will vary according to the volume used). Note: Centrifuge vial before opening. When reconstituting genty pipet and wash down the sides of the vial to ensure full recovery of the protein into solution. Purity 85% by SDS-PACE with Coomassie Brilliant Blue staining. Formulation The purified protein was Lyophilized from sterile PBS (SBm Na2HPO4, 17m NaH2PO4, 6Bm Na2 tendes and 5% mannitol are added as protectant before lyophilization.
