## FOR IN VITRO RESEARCH USE ONLY. NOT FOR USE IN HUMANS OR ANIMALS.

## Recombinant human KLHDC8A protein

| Basic Information        | Catalog Number:  | Peptide Sequence:   |
|--------------------------|--|---|
|                          | Ag23318  | MEVPNVKDFQWKRLAPLPSRRVYCSLLETGGQVYAIG                       |
|                          | Form:  | GCDDNGVPMDCFEVYSPEADQWTALPRLPTARAGV                         |
|                          | Available lyophilized  | AVTALGKRIMVIGGVGTNQLPLKVVEMYNIDEGKWKK                       |
|                          | Species:   | RSMLREAAMGISVTAKDYRVYAAGGMGLDLRPHNHL                        |
|                          | human  | QHYDMLKDMWVSLAHMPTPRYAATSFLRGS                              |
|                          | Expression Source:   | (1-175 aa encoded by BC036076)                              |
|                          | e coliderived, PGEX-4T, with N-terminal GST.   |   |
|                          | Biological Activity:   |   |
|                          | Not tested   |   |
|                          | Endotoxin Level:   |   |
|                          | Please contact the lab for more information  |   |
|                          | Decementaria   | Chinning  |
| Reconstitution           | Reconstitution:<br>Reconstitute at 0.25 µg/µl in 200 µl sterile water for short-term   | Shipping:<br>The product is shipped at ambient temperature. |
| and Storage              | storage.   | Upon receipt, store it immediately at the                   |
|                          | After reconstitution with sterile water, if glycerol has no effect   | recommended temperature (see below).                        |
|                          | on subsequent experiments, it is recommended to add an   |   |
|                          | equal volume of glycerol for long-term storage (see Stability<br>and Storage for more details).  |   |
|                          | If a different concentration is needed for your purposes please  |   |
|                          | adjust the reconstitution volume as required (please note: the   |   |
|                          | ion concentration of the final solution will vary according to   |   |
|                          | the volume used).<br>Note: Centrifuge vial before opening. When reconstituting,  |   |
|                          | gently pipet and wash down the sides of the vial to ensure full  |   |
|                          | recovery of the protein into solution.   |   |
| Purity                   | 85%, by SDS-PAGE with Coomassie Brilliant Blue staining.   |   |
|                          |  |   |
| Formulation              | The purified protein was Lyophilized from sterile PBS (58mM Na2HPO4,17mM NaH2PO4, 68mM NaCl, pH8.). 5 %<br>trehalose and 5 % mannitol are added as protectant before lyophilization. The elution buffer contain 100mM GSH. |   |
| Stability and Storage    | Store for up to 12 months at -20°C to -80°C as lyophilized powder.   |   |
|                          |  |   |
| Storage of               | Short Term Storage:<br>Store at 2-8°C for (1-2 weeks).   |   |
| Reconstituted Protein    | Long Term Storage:   |   |
|                          | Aliquot and store at -20°C to -80°C for up to 3 months,  |   |
|                          | reconstitution with sterile water and addition of an equal   |   |
|                          | volume of glycerol. Avoid repeat freeze-thaw cycles.   |   |
| Selected Validation Data |  |   |
| Selected validation Data | 74 kDa   |   |
|                          | 74 kDa→<br>66 kDa→   |   |
