Available lyophilized		
Species: human		
Expression Source: <i>e coli-</i> derived, PET28a, with N-terminal 6*His. Biological Activity: Not tested		
		Endotoxin Level: Please contact the lab for more information
		Reconstitution:
Reconstitute at 0.25 μ g/ μ l in 200 μ l sterile water for short-term		The product is shipped at ambient temperature.
After reconstitution with sterile water, if glycerol has no effect on subsequent experiments, it is recommended to add an equal volume of glycerol for long-term storage (see Stability and Storage for more details).	Upon receipt, store it immediately at the recommended temperature (see below).	
adjust the reconstitution volume as required (please note: the ion concentration of the final solution will vary according to		
the volume used). Note: Centrifuge vial before opening. When reconstituting, gently pipet and wash down the sides of the vial to ensure full recovery of the protein into solution.		
85%, by SDS-PAGE with Coomassie Brilliant Blue staining.		
The purified protein was Lyophilized from sterile PBS (58mM Na2H trehalose and 5 % mannitol are added as protectant before lyophi imidazole.	•	
Store for up to 12 months at -20°C to -80°C as lyophilized powder.		
Short Term Storage: Store at 2-8°C for (1-2 weeks). Long Term Storage: Aliquot and store at -20°C to -80°C for up to 3 months, reconstitution with sterile water and addition of an equal volume of glycerol. Avoid repeat freeze-thaw cycles.		
$74 \text{ kDa} \rightarrow$ $43 \text{ kDa} \rightarrow$ $28 \text{ kDa} \rightarrow$ -32 kDa		
	e cali-derived, PET28a, with N-terminal 6°His. Biological Activity: Not tested Endotoxin Level: Pease contact the lab for more information Ceconstitution at 0.25 µg/µl in 200 µl sterile water for short-term storage. After reconstitution with sterile water, if glycerol has no effect on subsequent experiments, it is recommended to add an equal volume of glycerol for long-term storage (see Stability and Storage for more details). If a different concentration is needed for your purposes please adjust the reconstitution volume as required (please note: the ion concentration of the final solution will vary according to the volume used). Note: Centrifuge vial before opening. When reconstituting gently pipet and wash down the sides of the vial to ensure full recovery of the protein into solution. Stow, by SDS-PAGE with Coomassie Brilliant Blue staining. The purified protein was Lyophilized from sterile PBS (SBmM Na 24 trehalose and 5 % mannitol are added as protectant before lyophi imidazole. Store for up to 12 months at -20°C to -80°C as lyophilized powder. Store for up to 12 months at -20°C to -80°C as lyophilized powder.
