Recombinant human LMO2 protein

| Ag28632 MSALERKIDPSEEPVDEVLQIPPSILT Form: DRYFLUADQWHEDCLSCLCCRCE Available lyophilized CRRCERRPUEFCGDCLCASCDRRRW Available lyophilized CRRCERRPUEFCGDCLCASCDRRRW Species: CRRCERRPUEFCGDCLCASCDRRRW human Expression Source: CRRCERRPUEFCGDCLCASCDRRRW e coli-derived, PET28a, with N-terminal 6*His. Biological Activity: It-Is8 as encoded by BC034041) Not essed Endotoxin Level: Please contact the lab for more information The product is shipped at ambient term storage. After reconstitution Reconstitute at 0.25 µg/µl in 200 µl sterile water for short-term storage as dynast the reconstitution with sterile water, if glycerol has no effect on subsequent experiments, it is recommended to add an equal volume of glycerol for ongr more details). The product is shipped at ambient term upon receipt, store it immediately at the in on concentration of the final solution will vary according to the volume used). The product is shipped at ambient term upon receipt, store it immediately at the constitution volume as required (please not: the in on concentration of the final solution will vary according to the volume used). The product is shipped at ambient term upon term estatistical for the volume used. Purity B0% by SDS-PACE with Coomassie Brilliant Blue staining. Formulation Formulation The purified protein was lyophilized from sterile PBS (SBm Ma2APD04.17mM NaH2PO4, 6Bm MaCL pH74, trease | |
|---|----|
| Available lyophilized GRUCRBOYNEUFCODOCLCASCOMRIAY Species: VVMILECP(CAACQNFECVCDRYLLINS) human Expression Source: e coll-derived, PET28a, with N-terminal 6*His. Biological Activity: Not tested Endotoxin Level: Please contact the lab for more information Shipping: The product is shipped at ambient terr Upon receipt, store it immediately attractivity: and Storage After reconstitution with sterile water for short-term storage. Shipping: After reconstitution on subsequent experiments, it is recommended to add an equal volume of glycerol for long-term storage (see Stability and Storage for more details). Shipping: Note: Centripue value for more defined for your purposes please adjust the reconstitution volume as required (please note: the ion concentration of the final solution will vary according to the volume used). Note: Centripue value for opening. When reconstituting, genty pipet and wash down the sides of the vial to ensure full recovery of the protein into solution. Purity 80%, by SDS-PAGE with Coomassie Brilliant Blue staining. The purified protein was lyophilized from sterile PBS (SBMM Na2HP04, 17mM NaH2P04, 68mM NaCL, pH7,4) trehalose and 5% mannitol are added as protectant before lyophilization. The elution buffer contain 300mk imidazole. Stability and Storage Store for up to 12 months at -20°C to -80°C as lyophilized powder. Storage of Reconstituted Protein Store for up to 12 months, at -20°C to -80°C fo | |
