| and Storage | storage. | Upon receipt, store it immediately at the recommended temperature (see below). | |
| | After reconstitution with sterile water, if glycerol has no effect on subsequent experiments, it is recommended to add an | | |
| | equal volume of glycerol for long-term storage (see Stability | | |
| | and Storage for more details). | | |
| | If a different concentration is needed for your purposes please adjust the reconstitution volume as required (please note: the | | |
| | ion concentration of the final solution will vary according to | | |
| | the volume used). Note: Centrifuge vial before opening. When reconstituting, | | |
| | gently pipet and wash down the sides of the vial to ensure full | | |
| | recovery of the protein into solution. | | |
