## FOR IN VITRO RESEARCH USE ONLY. NOT FOR USE IN HUMANS OR ANIMALS.

## Recombinant human GINS1 protein

Ag9192 Form:	Peptide Sequence: MFCEKAMELIRELHRAPEGQLPAFNEDGLRQVLEEMK ALYEQNQSDVNEAKSGGRSDLIPTIKFRHCSLLRNRRC TVAYLYDRLLRIRALRWEYGSILPNALRFHMAAEEMEW FNNYKRSLATYMRSLGGDEGLDITQDMKPPKSLYIEVR CLKDYGEFEVDDGTSVLLKKNSQHFLPRWKCEQLIRQ GVLEHILS (1-196 aa encoded by BC012542)
Species: human	
<i>e coli-</i> derived, PET28a, with N-terminal 6*His. Biological Activity:	
Not tested Endotoxin Level: Please contact the lab for more information	
Reconstitution: Reconstitute at 0.25 µg/µl in 200 µl sterile water for short-term storage. After reconstitution with sterile water, if glycerol has no effect on subsequent experiments, it is recommended to add an equal volume of glycerol for long-term storage (see Stability and Storage for more details). If a different concentration is needed for your purposes please adjust the reconstitution volume as required (please note: the ion concentration of the final solution will vary according to the volume used). Note: Centrifuge vial before opening. When reconstituting, gently pipet and wash down the sides of the vial to ensure full recovery of the protein into solution.	Shipping: The product is shipped at ambient temperature. Upon receipt, store it immediately at the recommended temperature (see below).
85%, by SDS-PAGE with Coomassie Brilliant Blue staining.	
The purified protein was Lyophilized from sterile PBS (58mM Na2h trehalose and 5 % mannitol are added as protectant before lyophi imidazole.	•
Store for up to 12 months at -20°C to -80°C as lyophilized powder.	
Short Term Storage: Store at 2-8°C for (1-2 weeks). Long Term Storage: Aliquot and store at -20°C to -80°C for up to 3 months, reconstitution with sterile water and addition of an equal volume of glycerol. Avoid repeat freeze-thaw cycles.	
74 kBa→
