For Research Use Only

CoraLite® Plus 488-conjugated PKC Beta Polyclonal antibody

www.ptglab.com

Catalog Number: CL488-12919

Featured Product

Basic Information

Catalog Number: GenBank Accession Number:

CL488-12919 BC036472 GeneID (NCBI):

100ul, Concentration: 1000 ug/ml by 5579

Nanodrop: **UNIPROT ID:** P05771 Rabbit Full Name:

Isotype: protein kinase C, beta IgG Calculated MW: Immunogen Catalog Number: 673 aa, 77 kDa

AG3591

Applications

Tested Applications: IF/ICC, FC (Intra)

Species Specificity:

Purification Method:

Antigen affinity purification Recommended Dilutions:

IF/ICC 1:50-1:500 Excitation/Emission maxima

wavelengths: 493 nm / 522 nm

Background Information

Protein kinase C (PKC) is a family of serine- and threonine-specific protein kinases that can be activated by calcium and second messenger diacylglycerol. Protein kinase Cs (PKCs) are signaling molecules that play key roles in many cellular processes, including secretion, gene expression, proliferation, and muscle contraction. The PKC family is broadly divided into three subgroups: classical, novel, and atypical PKCs. These subgroups differ in both protein sequences and mechanistic requirements for catalytic activity. PKC beta is one of the PKC family members. PKC beta has been reported to be involved in many different cellular functions, such as B cell activation, apoptosis induction, endothelial cell proliferation, and intestinal sugar absorption. Studies in mice also suggest that this kinase may also regulate neuronal functions and correlate fear-induced conflict behavior after stress. This antibody can recognize PKC beta, PKC alpha, PKC gamma, PKC epsilon and PKC delta.

Positive Controls:

IF/ICC: K-562 cells,

Storage

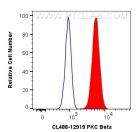

Store at -20°C. Avoid exposure to light. Stable for one year after shipment.

PBS with 50% Glycerol, 0.05% Proclin300, 0.5% BSA, pH 7.3.

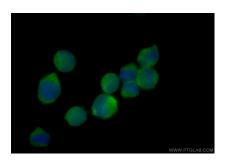

Aliquoting is unnecessary for -20°C storage

in USA), or 1(312) 455-8498 (outside USA)

Selected Validation Data

1X10^6 K-562 cells were intracellularly stained with 0.8 ug Coralite® Plus 488 Anti-Human PKC Beta (CL488-12919) (red), or 0.8 ug Isotype Control. Cells were fixed with 4% PFA and permeabilized with Flow Cytometry Perm Buffer (PF00011-C).

Immunofluorescent analysis of (4% PFA) fixed K-562 cells using CoraLite® Plus 488 PKC Beta antibody (CL488-12919) at dilution of 1:200.
