For Research Use Only

CoraLite®594 Anti-Human DDR1/CD167a Rabbit Recombinant Antibody

Purification Method:

Protein A purification

Excitation/Emission maxima

CloneNo.:

241796D6

wavelengths: 588 nm / 604 nm

Catalog Number: CL594-98200

Basic Information

Catalog Number: CL594-98200

Size:

100tests, 5 ul/test

Source: Rabbit Isotype:

IgG

Immunogen Catalog Number:

EG1675

GenBank Accession Number:

NM_001297654.2 GeneID (NCBI):

UNIPROT ID: Q08345-1

Full Name:

discoidin domain receptor tyrosine

kinase 1

Calculated MW: 101kDa

Applications

Tested Applications:

Species Specificity:

human

Background Information

DDR1, or CD167a, is a member of the receptor tyrosine kinase (RTK) family, which plays a significant role in various cellular processes including cell proliferation, adhesion, migration, and extracellular matrix (ECM) remodeling. DDR1 is known for its unique discoidin domain that allows it to bind specifically to certain collagens, initiating downstream signaling pathways that can lead to cell transformation and tumor progression. Abnormal activation of DDR1 is closely associated with the development of various solid tumors, and it has been shown that DDR1 can prevent immune cells from infiltrating triple-negative breast cancer (TNBC) and eliminate tumor cells.

Storage

Store at 2-8°C. Avoid exposure to light. Stable for one year after shipment.

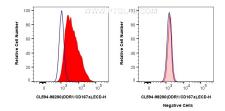

Storage Buffer

PBS with 0.09% sodium azide and 0.5% BSA, pH7.3

in USA), or 1(312) 455-8498 (outside USA)

W: ptglab.com

Selected Validation Data

1x10^6 MCF-7 cells (left) or HeLa cells (right) were surface stained with 5 ul CoraLite®594 Anti-Human DDR1/CD167a Rabbit RecAb (CL594-98200, Clone: 241796D6) (red) or CoraLite®594 Rabbit IgG Isotype Control RecAb (CL594-98136, Clone: 240953C9) (blue). Cells were not fixed.
