

For Research Use Only

FITC Plus Anti-Mouse CD81 (EAT2)

Catalog Number: FITC-65220

1 Publications

Basic Information

Catalog Number:

FITC-65220

Size:

100ug, 500 µg/ml

Source:

Armenian Hamster

Isotype:

IgG

GenBank Accession Number:

BC011433

GeneID (NCBI):

12520

Full Name:

CD81 antigen

Purification Method:

Affinity purification

CloneNo.:

EAT2

Excitation/Emission maxima wavelengths:

495 nm / 524 nm

Applications

Tested Applications:

FC

Cited Applications:

FC

Species Specificity:

mouse

Background Information

CD81 (also known as TAPA1 or TSPAN28) is a membrane protein of the tetraspanin superfamily, which are characterized by the presence of four conserved transmembrane regions. Many of these members are expressed on leukocytes and have been implicated in signal transduction, cell-cell interactions, and cellular activation and development. CD81 is involved in signal transduction and cell adhesion in the immune system (PMID: 9597125). CD81 has also been identified as an essential receptor for HCV (hepatitis C virus) (PMID: 21428934).

Storage

Storage:

Store at 2-8°C. Avoid exposure to light. Stable for one year after shipment.

Storage Buffer:

PBS with 0.09% sodium azide.

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

1X10⁶ mouse splenocytes were surface stained with 1 ug FITC Plus Anti-Mouse CD81 (FITC-65220, Clone: EAT2) (red) or 1 ug Control Antibody. Cells were not fixed.
