Selected Validation Data

Western blot analysis of GAPDH in various tissues and cell lines using Proteintech antibody HRP-60004 at a dilution of 1:10000. Various lysates were subjected to SDS PAGE followed by western blot with HRP-60004 (GAPDH antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours.

HeLa cells were subjected to SDS PAGE followed by western blot with HRP-60004 (GAPDH antibody) at dilution of 1:30000 incubated at room temperature for 1.5 hours.
